(2017-2018)

Techansium Christelijk Lyceum
Delft (2011-2017) (NG +NT)

PROFILE

Currently I am in the first year of the Master's degree Strategic Product Design at Industrial Design at TU Delft. I run nominally with my studies and get a lot of motivation from the group assignments that I can tackle with an international team. Before I started my bachelor's degree Industrial Design Engineer in Delft, I lived in Norway for a year. I went to a Folkhøgskule. Here I practiced a lot of outdoor sports and joined group projects. Being surrounded by people gives me a lot of energy, which is why I really enjoy working together. On the other hand, working independently is also one of my strengths. I always take my responsibilities. I am also curious and I enjoy learning new things. My creativity and entrepreneurship often ensure that I have small projects running or that I come up with new solutions for day to day problems.

WORK EXPERIENCE

Teaching assistant TU Delft, Industrial Design Engineering: August 2020-present
Being a teaching assistant at the faculty of Industrial Design Engineering is one of the most wonderful jobs there is. I am preparing workshops and assist the first year's students. Helping other students with knowledge I learned just a few years ago at the same faculty is something I am proud of to share with others. I really like the interaction with the new students.

Secrid wallets: August-November 2021
The Dutch Industrial Design company Secrid wallets has been a pleasure to work for. I have been working on a sustainable way of repairing wallets and creating a more enjoyable customer experience. I also worked at the customer care.

Marketing agency Blauwe Monsters: 2019 -present
Currently I am working for Blauwe Monsters. This is a marketing agency. I am writing blogs for their customers. I learn a lot about different products and environments.

Promotion team of faculty Industrial Design Engineering 2019-2021
I worked in the promotion team of Industrial Design Engineering. I helped on open days and I provided future students with walk along days and try to help them in their choice of study.

B&B Pensão das Duna: 2017 & 2019
For two summers I have been working in a B&B (Pensão das Duna) in Portugal. Guest came from all over the world. I was able to immediately improve my communication skills. The fact that the owner gave me so much responsibility was exciting but also a nice challenge. This required quite a bit of organizational skills.

Water skipark Wollebrand: 2018
I worked at the water ski park Wollebrand for a few months. I arranged all registrations and timeslots for the customers. I was also in charge of the technical part of the water ski park with my colleagues. It was important that I worked precisely.

Babysitting: 2015-present

HOBBIES

- Traveling
- Sailing
- Snowboarding
- Creative projects
- Crossfit
- Cooking

CORE VALUES

- Social
- Motivated
- Teamworker
- Responsible
- Inquisitive
- Creative
